

I am a reader...

I am a reader. I can decipher the written code in texts of varying length and complexity; I can take meaning from the texts that I read; when I read I read with fluency, intonation and at an appropriate pace. Reading enables me to make more sense of the world around me, it broadens my knowledge, widens my vocabulary and ignites my imagination. Reading gives me the power to develop myself as an individual and as a part of society.

Hollis Scarborough—creator of the famous Reading Rope and senior scientist at Haskins Laboratories—is a leading researcher of early language development and its connection to later literacy. The genesis of the Reading Rope dates back to Scarborough’s lectures for parents on the complexities involved in learning to read. The Reading Rope consists of lower and upper strands. The word-recognition strands (phonological awareness, decoding, and sight recognition of familiar words) work together as the reader becomes accurate, fluent, and increasingly automatic with repetition and practice. Concurrently, the language-comprehension strands (background knowledge, vocabulary, language structures, verbal reasoning, and literacy knowledge) reinforce one another and then weave together with the word-recognition strands to produce a skilled reader.

The strands within the reading rope have formed the basis of this reading progression document.

Key Concepts	
<p>What is reading?</p> <p><i>Reading is the action or skill of deciphering words and symbols and making meaning of them. Our brains convert these words and relate them to the world we may have experienced, learned about or imagined.</i></p> <p><i>Humans have been reading for only around 5000 years, a sliver of our evolutionary history. The origins of humans learning to read dates back to when humans first began to write when the purpose of writing was to make records for others to understand.</i></p> <p><i>Reading is the process of looking at a series of written symbols and getting meaning from them. When we read, we use our eyes to receive written symbols (letters, punctuation marks and spaces) and we use our brain to convert them into words, sentences and paragraphs that</i></p>	<p>Background Knowledge: A person's background knowledge, often called prior knowledge, is a collection of "abstracted residue" (Schallert, 2002, p. 557) that has been formed from all of life's experiences. We all, whether as a toddler or a centenarian, bring diverse bits of background knowledge—consciously or subconsciously—to every subsequent experience, and we use them to connect or glue new information to old. Background knowledge is an essential component in learning because it helps us make sense of new ideas and experiences.¹</p> <p>Vocabulary: Vocabulary is the knowledge of words and word meanings. As Steven Stahl (2005) puts it, "Vocabulary knowledge is knowledge; the knowledge of a word not only implies a definition, but also implies how that word fits into the world." Vocabulary knowledge is not something that can ever be fully mastered; it is something that expands and deepens over the course of a lifetime. Instruction in vocabulary involves far more than looking up words in a dictionary and using the words in a sentence. Vocabulary is acquired incidentally through indirect exposure to words and intentionally through explicit instruction in specific words and word-learning strategies. According to Michael Graves (2000), there are four components of an effective vocabulary program:</p> <ol style="list-style-type: none"> 1. wide or extensive independent reading to expand word knowledge 2. instruction in specific words to enhance comprehension of texts containing those words 3. instruction in independent word-learning strategies, and 4. word consciousness and word-play activities to motivate and enhance learning²
	<p>Language structures: A reader needs at least an implicit understanding of how language is structured, that is, grammar. The child reader needs to 'hear' their reading voice, whether this is in their head (silent reading) or out loud, they need to be able to hear whether their reading has made sense, they need to ask themselves whether their reading sounds right.</p>
	<p>Verbal reasoning / comprehension: Readers need to be able to make inferences and construct meanings from the text: that is, they need to be able to THINK logically about what they read in they are to understand it, and its implications.³ Readers who struggle with phonemic awareness will find it challenging to understand much of what they are 'reading' without support. The reading habit of considering the context of what is being read needs to be carefully built up over time, as the reader's knowledge of phonics and language structures develops, so too will their ability to monitor the meaning of what they are reading.</p>

<p><i>communicate something to us.</i></p> <p><i>Reading can be silent (in our head) or aloud (so that other people can hear).</i></p> <p><i>Reading is a receptive skill - through it we receive information. But the complex process of reading also requires the skill of speaking, so that we can pronounce the words that we read. In this sense, reading is also a productive skill in that we are both receiving information and transmitting it (even if only to ourselves).</i></p>	<p>Literacy Knowledge: it is important for child readers to understand concepts of print such as reading from left to right and top to bottom, how to hold a book, and that full stops complete one sentence (unit of meaning) before the text moves on³. Opportunities for pupils to access a wide range of genres is key to the development of their literacy knowledge, increasing their awareness of and ability to read and comprehend fiction, non-fiction, poetry, play scripts etc will give them a broad and balanced reading experience that develops in complexity as their ability to read develops.</p> <p>Phonological awareness: Phonemic awareness refers to the specific ability to focus on and manipulate individual sounds (phonemes) in spoken words. Phonemes are the smallest units comprising spoken language. Phonemes combine to form syllables and words. Phonological awareness is a broad skill that includes identifying and manipulating units of oral language – parts such as words, syllables, and onsets and rimes. Children who have phonological awareness are able to identify and make oral rhymes, can clap out the number of syllables in a word, and can recognize words with the same initial sounds like 'money' and 'mother.'⁴</p> <p>Decoding: Decoding is the ability to apply your knowledge of letter-sound relationships, including knowledge of letter patterns, to correctly pronounce written words. Understanding these relationships gives children the ability to recognize familiar words quickly and to figure out words they haven't seen before. Phonics is one approach to reading instruction that teaches students the principles of letter-sound relationships, how to sound out words, and exceptions to the principles.⁵</p> <p>Sight recognition: Technically speaking, the term “sight word” refers to any word an individual can read as a whole word, without sounding it out. High frequency words are words that commonly occur in print. Because high frequency words appear repeatedly in texts, it is important for students to recognize these words with automaticity. These words then become “sight words” for the individual.</p> <p>Sight word recognition of high frequency words is important because it increases fluency and allows the reader to focus upon the decoding of more complex words. As students become more fluent with decoding and sight word recognition, they are better able to focus on comprehending the text.⁶</p>
<p>Reading for Pleasure</p>	<p>To promote reading for pleasure, all of our pupils listen to adults in school read high quality texts which are engaging and interesting, they prompt discussion and motivate pupils to read other books in the series, genre or by the same author. Our pupils are given a range of texts to choose from (at an appropriate level) for them to read to themselves and people at home. Pupils are given opportunities to read aloud and to re-read texts to ensure the improvement of pace, expression and prosody. Pupils regularly read and listen to books being read which are linked to other areas of our CLF curriculum, they are encourage to make links and to transfer aspects of what they have read to their writing.</p>

Our aim is to ensure not only that children can read but that they do read. We know that if children are enthusiastic, independent readers by the time they leave primary school, and this is sustained into their teenage years, then this has a strongly positive impact on their life chances and educational success. We believe that developing the ability to understand is critical to becoming a committed reader, for if you don't understand why would you want to read? Developing positive attitudes depends on this understanding but also on the diet of texts we use with children. We need to read regularly to our classes, whatever their age. We need to use whole books not just extracts, so readers experience the pleasures of a beginning, middle and end of a text, of seeing how exciting situations are resolved and how books can open us up to new worlds and strange possibilities. We need to enthuse children about books, so we need to be committed readers ourselves, knowledgeable about children's books, and adept at exploiting opportunities created by film dramatisations of children's books, by world book day and other celebrations, and by creating exciting, engaging opportunities for reading through our classroom work.

Vocabulary	<ul style="list-style-type: none"> • Discuss the meaning of new words by linking to prior knowledge, etymology, morphology, context, word roots • Homophones, synonyms, antonyms • Explicit teaching and pre-teaching of vocabulary • Discuss, collect and explain words and phrases in context (narrative and subject-related) Danger of misdirective contexts • Tier 2 and 3 vocab • Figurative language • Use age appropriate dictionaries and thesauruses to check the meanings of words
Language Structures	<ul style="list-style-type: none"> • Recite poems by heart, using intonation, tone and volume to emphasise key elements of the poem and provoke a response in the listener e.g. The Tyger (Blake) Stop All The Clocks (Auden) recital of well-known speeches (Winston Churchill, Martin Luther King, Nelson Mandela) • Read aloud and perform play scripts, refining their performance to illustrate subtleties e.g. to show changes in character, effects of the plot using asides, expressions, gestures, monologues
Verbal Reasoning	<ul style="list-style-type: none"> • Discuss their understanding of both texts they have read independently and those read to them • Predict what may happen based on their wider understanding of context and themes (e.g. I think Rose will die because the Germans killed people who tried to help anyone in concentration camps). • Justify their inferences and views with a variety of references from across texts and by comparing sources and considering the reliability of information e.g. selecting points that support and discrediting points that contradict their argument • Draw inferences across texts about characters' viewpoints, authors' viewpoints and themes e.g. soldiers were disillusioned with the war because the reality was different from what they'd been told • Ask specific questions to develop understanding of a text, topic or theme, including their wider understanding of cultural and social issues e.g. Why did Dickens write so often about the rich and the poor? Why was Adeline treated so badly? (Chinese Cinderella) • Identify how the same theme is represented across texts e.g. loss in WWI poetry/narratives and how multiple themes are presented in longer narratives e.g. 'Trash' is about courage, poverty, perseverance • Explain and extend their own views and challenge those of others • Summarise ideas, events and information throughout a text and across texts (about a common topic) • Distinguish between fact, opinion and bias
Literacy Knowledge	<ul style="list-style-type: none"> • Read books that are structured in specific ways and for a range of purposes e.g. time slip stories, texts that provide information about a theme/topic from the past, present and future • Discrete teaching of skimming and scanning to locate information efficiently across a range of sources • Identify the structural conventions of non-fiction in relation to the text type • Identify how the structure and presentation of texts contributes to the meaning e.g. moving backwards and forwards throughout the story ('Holes') using a range of narrators (Trash) pathway stories
Phonological Awareness	<ul style="list-style-type: none"> •
Decoding	<ul style="list-style-type: none"> •
Sight Recognition	<ul style="list-style-type: none"> • Apply their knowledge of root words, prefixes and suffixes to read aloud in relation to Y6 curriculum content • Use appropriate inflection, volume and tone demonstrating understanding and awareness of the audience • Fluency: sustained reading with extended texts across the curriculum at 90 wpm
